

# Toolroom Team Leader

An opportunity has arisen within the Toolroom department for a Toolroom Team Leader working as part of a team, Monday to Friday 8.30am till 5.00pm.

Reporting to the Toolroom Supervisor, the Toolroom Team Leader is primarily responsible for providing support to the Toolroom Supervisor, through a hands-on toolmaking role to ensure the successful operation of the toolroom and prototyping departments.

## Duties include:

- Provide training to the BNL toolroom and prototyping staff.
- Ensure prototyping, tool development, maintenance and servicing tasks are carried out efficiently, cost effectively and to the required quality standard.
- Champion the use of 3D methods, including CMM measurement, Cimatron CAD/CAM and other software as required.
- Ensure Toolroom and Prototyping staff work in a safe and effective manner.
- Upkeep and maintain reporting records as required.
- Provide cover for the Toolroom Supervisor as and when required.

## Essential Experience / Skills:

- Extensive plastic injection mould tool manufacturing experience
- Experience of plastic injection mould tool repair and servicing
- Financially astute with the ability to minimise costs.
- Experienced in prototype manufacture.
- Robust approach to problem solving and manufacturing process optimisation
- Knowledge of ISO 9001 and TS16949 Product Realisation Process
- An effective time served toolmaker, coach and facilitator with a personable but confident interpersonal style.
- The ability to train apprentices, coaching them to achieve a fully skilled status.
- IT literate
