

An opportunity has arisen for a Logistics Operative working within our Logistics team, reporting to the Logistics Team Leader.

This role requires the Logistics Operative to ensure that parts are issued, prepared for build, assembled and managed to meet customer orders and forecasts.

## Main duties include:

- Ensure all inventory transactions are completed accurately in our MRP system
- Pick, count and prepare material for assembly by a 3rd party supplier
- Van deliveries and collections requiring significant and prolonged physical work to load and unload vans and carry work to and from suppliers locations
- Manage material through internal processes such as counting WIP before assembly
- Any other duties that may be required within the logistics function included contributing to continuous improvement projects

## Qualifications/Education:

- Good level of general education including GCSE pass in Mathematics

## Technical/Specialist Experience:

- Practical experience of working within a material warehousing and the use of computerised stock control systems
- Clean driving licence
- Experience of Glovia MRP system would be advantageous
