

A vacancy has arisen within BNL (UK) Ltd for a Lean CI Facilitator to report to the UK Operations Manager working 8.30am to 5.00pm (Monday to Friday).

The Lean CI Facilitator role is to support the overall Lean Continuous Improvement Strategic Initiative at BNL and lead improvement projects in manufacturing and transactional areas.

Responsibilities:

- Partnership with the BNL senior management team to define the Lean Continuous Improvement strategy and research and select project opportunities.
- Leadership of lean continuous improvement projects in manufacturing and transactional areas.
- To contribute to the education of the workforce by combining practical projects and lean core tools training at a range of levels.
- To demonstrate the use and value of lean CI core tools whilst conducting improvement projects.
- To contribute to technical problem solving as well as providing technique leadership and guidance.
- To contribute to the visual transformation of the workplace with the creation of team boards, visual management processes and KPI information.

Qualifications/Education:

- Degree qualification in a science or engineering subject.
- 2-5 years' experience working in a production role in a complex manufacturing environment with lean and continuous improvement experience.
- External lean manufacturing qualifications or evidence of internal training.
